ADITI PANDEY

7822969556 | aditirichapandey@gmail.com | LinkedIn | Github

PROFESSIONAL SUMMARY

Master's student in Statistics with strong skills in data analysis, machine learning, and tools like **MySQL, Python, R, and Power BI**. Experienced in Predictive modeling, Data visualization, and applying statistical techniques to derive actionable business insights. Known for critical thinking, leadership, and problem-solving abilities, with experience in real-world data projects as a **Data Analyst Intern**.

EDUCATION

Masters in Statistics | MIT-WPU, Pune *pursuing*

Bachelors of Science | K.T.H.M College, Nashik | 8.59 *CGPA* 2021-2024

Higher Secondary Certificate |C.M.C.S College, Nashik | 76.80% 2020-2021

CORE COMPETENCIES

- **Programming Language**: Python, R, SQL.
- **Data Tools & Technologies**: Power BI, MySQL, Excel, RStudio, VS Code.
- **Analytical & Statistical Expertise**: Data Cleaning, EDA, Predictive Modeling, Machine Learning, Statistical Analysis (Regression, Hypothesis Testing, Time Series)
- **Management Skills**: Attention to Detail, Problem-Solving, Collaboration, Communication, Time Management, Leadership, Team-Work.

WORK EXPERIENCE

Data Analyst Intern | *Data Crush Analytics* Jun 2025 – Aug 2025

- Analyzed real-world client datasets by performing **data cleaning**, transformation, and reporting, leading to improved data accuracy and usability.
- Developed interactive dashboards and delivered actionable insights using **Python, SQL, and Power BI**, enhancing client decision-making efficiency by 20%.

PROJECTS

1. **Statistical Modeling of Crime Data in Indian States** Nov 2025
   - Modeled crime data using regression, transformation, and hypothesis testing to derive actionable insights for state-level planning.
   - Improved model accuracy by 15% using data transformation and feature engineering.
   - Used **R and Excel** for data cleaning, visualization, and interpretation.
2. **Sentiment Analysis of Google Play Store Apps** June 2025
   - Scraped user reviews from the Play Store using **Python** libraries like *BeautifulSoup* and *requests*.
   - Performed text preprocessing and sentiment classification using NLP and Support Vector Machine (SVM).
   - Achieved 85% accuracy, providing insights into user perception and app performance.
   - Utilized machine learning techniques like SMOTE for imbalance handling, Naive Bayes, and Logistic Regression for model comparison; visualized data patterns using heatmaps.

CERTIFICATIONS

- **Accenture Forage**: Data Analytics & Visualization Job Simulation – Jan 2025
- **Infosys Springboard**: Basics of Python (Jan 2025), Introduction to MySQL (Mar 2025)
- **Udemy**: Microsoft Excel: From Zero to Hero, Python and Flask Framework Complete Course – Nov 2024
- **Skill Up**: Artificial Intelligence – Beginner’s Guide (Jan 2025)

ADDITIONAL DETAILS

- **Achievements**: State-Level **Volleyball Player** – Represented Maharashtra; Organized inter-college sports events as part of the **college sports committee**.
- **Interests**: Travelling, Photography
